HARO

Laminate Floors

A floor for any occasion

Easy to install and incredibly quiet.

Naturally beautiful flooring

HA Laminate Simply

RO Floors – Better

With Silent CT 60% quieter than standard laminate floors

Welcome to HARO

Our family business has a tradition in wood processing in Rosenheim, Bavaria, that goes back 150 years. With our love for natural wood and our high quality standards combined with modern design, we have evolved into Germany's leading flooring manufacturer.

Thinking in generations with a long-term orientation is the foundation of our daily activities – and this is what is at the heart of our products. The development and manufacturing of sustainable products are just as natural for us as a high degree of innovation and modern design. This applies to our diverse parquet floor range as well as to our laminate floors and design floors, which are free from PVC and plasticisers. We offer just the right floor for any requirement.

We are delighted to inspire you with our passion for naturally beautiful flooring – enjoy choosing your new floor!

With kind regards

Peter Hamberger

Natural beauty is not a matter of chance

HARO stands for natural beauty. Over the decades, we have learned to understand what makes a truly beautiful floor. This knowledge and our enthusiasm for the unique beauty of wood inspire us every day. And you will feel it in every single one of our Laminate Floors. They are made of 80% wood, and the grain and texture are authentically modelled on real wood. This makes the natural quality of the floor visible and tangible. The big advantage: Thanks to the innovative developments, HARO Laminate Floors are more durable and easy to clean, and are even suitable for use in rooms subject to splashes and spills

Sustainable quality 'Made in Germany'

As a family business, we think ahead and approach what we do in a considered and sustainable manner. For us, this includes the careful use of all resources. For instance, we only use wood from our own and from certified forestry. This ensures that the amount of wood taken from the forests never exceeds the amount that can grow back again. And thanks to our biomass power plants and our hydroelectric power plant that uses the power of the Sims river, we are self-sufficient in energy – and in addition to our production, we can we can even supply 8000 households with electricity.

Integral parts of our company's philosophy are also our commitment to Rosenheim as our headquarters and the fact that our products are 'Made in Germany'. This becomes evident in the choice of our brand name, which is short for HAmberger ROsenheim. It is here that we cultivate and advance our unique expertise that has made us a leading and highly respected supplier on the world market. Each and every of HARO's products is of a guaranteed high quality, and will give you many years of pleasure – this is what we are committed to day after day. This striving for the highest standard is particularly well demonstrated by the fact that our laminate floors are extraordinarily resistant to scratching, abrasion, pressure and impact.

Values speak louder than words

Values are more than just words:
They shape our thoughts and actions – every single day.

Committed to sustainability

The more than 150-year history of our family business is characterised by sustainable thinking and action. We are aware of our responsibility and embrace it with enthusiasm and commitment – for society, for the environment, for people.

Natural and healthy living

Not only are HARO floors beautiful to look at and to touch, they are also free from any harmful substances. For this, HARO was awarded the 'Blue Angel' quality label. This means that you can rest assured that our floors contribute to a high standard of healthy living and a pleasant ambience in the home.

Guaranteed high quality

We know what it takes to produce naturally beautiful, high-quality floors. We put this knowledge into practice with great care – in every single floorboard, right down to the last detail. This is something we are proud of, and we prove it with the best quality.

Made with passion

HARO is passion for natural beauty. We love processing and refining natural materials. Every single day, we use all our expertise and experience to ensure that you can feel the perfection of nature in our floors.

Made in Germany

As Germany's leading parquet manufacturer, we combine traditional craftsmanship with new technology in Rosenheim. This makes it possible for us to produce floor coverings of the highest quality. For more comfort when it comes to installation and maintenance, and for long-lasting pleasure in living, working and living.

Laminate Floors: the floor for any occasion

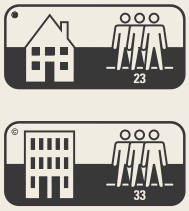

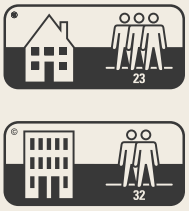

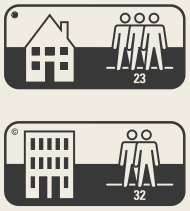

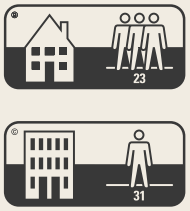

A laminate floor from HARO is an excellent choice for many reasons. Our high-tech floors inspire with a look and surface texture that is almost indistinguishable from real wood parquet. At the same time, they convince with their durability and robustness, while substantially contributing to a healthy living environment.
In addition, the label 'Made in Germany' guarantees that our top-quality Laminate Floors are exclusively produced in Germany under the best conditions.

Incredibly quiet

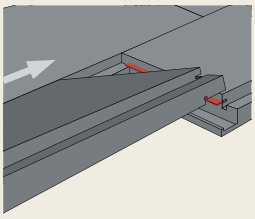

With HARO TRITTY Silent CT, we have invented the world's quietest laminate floor – room sound is reduced by 60% compared to conventional laminate floors. True living comfort that makes HARO TRITTY Silent CT the perfect choice for rooms that are used intensively for living and playing. such as living rooms or children's rooms. The Silent CT technology is available for all TRITTY series, except for the NKL 31 special edition.

Silent CT

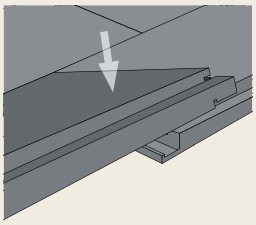

60% quieter than standard floating laminate floors

Top Connect – the easiest method of installation

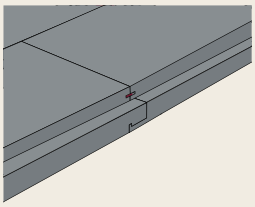

Thanks to the innovative Top Connect installation system, you can easily and quickly install our laminate floors yourself – and remove them just as easily when you move home. No tools are necessary. Simply angle in the floorboard, push it against the previously laid board and press it down. Done! Installation is quick and your floor will be dimensionally stable and fit accurately. Also, it can be installed on underfloor heating and cooling systems. We always have the matching accessories for your HARO Laminate Floor. You can find out more about insulation underlays, skirtings and mouldings on page 52.

You can find detailed installation instructions on HARO.com

Surfaces with character

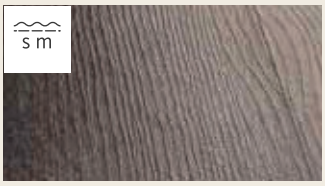

The surface treatment protects and refines the laminate floor. To give the individual appearance of each board its final touch, HARO's designers first choose the style. Only then do they decide which type of finish best suits the look of the floorboard.

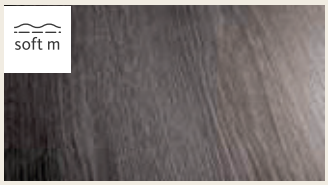

Pores
Slightly pore-textured and silky shine finish.

Pores matt
Slight pore texture and natural matt look.

Textured matt
Similar to real wood grain. The matt appearance underlines the natural look.

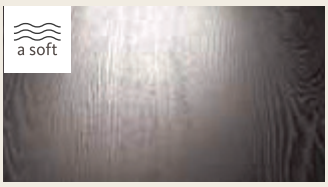

Soft matt
Noticeably velvety-soft and naturally matt with a slight gloss effect in the texture.

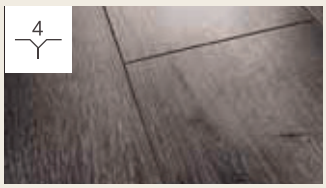

Authentic
The texture and style are practically indistinguishable from real wood. The gloss level emphasises the character and natural look of the wood reproduction.

Authentic matt
The texture and style are practically indistinguishable from real wood. The surface has a natural oil character and Plank 1-Strip also has a slight gloss effect in the pores.

Authentic soft
The texture and style are practically indistinguishable from real wood. The surface feels velvety and soft.

Bevelled edges on the long and short sides
To create an even more vivid impression, the edges on the long sides and ends are bevelled.

Perfect throughout the home

HARO Laminate Floors are ideal for all rooms. Whether it is surface aesthetics, installation height, maximum weight capacity or the application area – with four different series, we meet all needs.

TRITTY 200 Aqua – The Hard-wearing Floor

Thanks to the high level of use and its excellent resistance to abrasion, this floor is ideally suited for more heavily used living areas such as hallways and kitchens, and even for commercial applications. The extra moisture protection also makes TRITTY 200 Aqua the right choice for the bathroom.

Level of use 23/33

TRITTY 100 – The Tough One

The tough laminate floor with the huge selection that has everything you are looking for. The Silent CT technology even makes the TRITTY 100 Series the world's quietest laminate floor.

Level of use 23/32

TRITTY 90 – The Trendy One

Modern styles, robust construction and the new soft matt surface: the TRITTY 90 Series gives rooms a fresh and trendy look.

Level of use 23/32

Special edition NKL 31 – The Starter Model

Top quality at an excellent price: The HARO Special Edition NKL 31 is the ideal entry-level laminate floor for young living and your first own flat.

Level of use 23/31

(7 19/32" x 50 15/32")
7 mm (9/32") thick

1

3-Strip – Dynamic
- Three parallel strips create a vibrant look
- Classic styles
- Gives large areas a clear structure
- Dimensions: 193 x 1282 mm (7 19/32" x 50 15/32")

2

2-Strip – Distinctive
- Two parallel strips per board element
- Gives rooms a distinctive character
- Dimensions: 193 x 1282 mm (7 19/32" x 50 15/32")

3

Plank 1-Strip – Classic
- Almost indistinguishable from real parquet
- Modern-classic board aesthetics
- Dimensions: 193 x 1282 mm (7 19/32" x 50 15/32")

4

Loft 4V – Slim
- Looks particularly elegant in smaller rooms
- Bevelled edges on four sides to give the floor visual structure
- Dimensions: 135 x 1282 mm (5 5/16" x 50 15/32")

5

Campus 4V – Trendy
- Classic board length with a generous width
- Gives even vibrant styles a harmonious look across the whole surface
- Dimensions: 243 x 1282 mm (9 9/16" x 50 15/32")

6

Gran Via 4V – Gigantic
- Gives rooms a more spacious appearance
- The board has an authentic character thanks to the format and the bevelled edges on all four sides
- Dimensions: 243 x 2200 mm (9 9/16" x 86 5/8")

A highly water resistant solution

HARO Laminate Floors are suitable for any room – even if it gets exposed to spills. Thanks to the aquaTec system, you can rest assured that they will always remain dimensionally stable. Additional safety is provided by the new TRITTY 200 Aqua Series, which is even resistant to standing tap water for up to 24 hours.

aquaTec – double moisture protection

Their well-balanced multilayer construction ensures that HARO Laminate Floors remain stable at all times. And they will always stay in good shape. This is ensured by the special aquaTec system, which combines the moisture-control aquaResist HDF coreboard with a specially impregnated surface protection layer (overlay and decorative layer).

TRITTY 200 Aqua – even better moisture protection

With the aquaReject moisture-control coreboard, TRITTY 200 Aqua is optimally protected against moisture and is also approved for installation in rooms (Wo-1 in accordance with DIN 18534), such as domestic bathrooms or kitchens. Due to its special impregnation and the highest degree of resistance against swelling, TRITTY 200 Aqua can withstand standing tap water for up to 24 hours. With its special aquaReject coreboard TRITTY 200 Aqua is also suitable for damp rooms.

Easy to clean and maintain

HARO Laminate Floors are extremely easy to care for and remain timelessly beautiful. Dry cleaning with a vacuum cleaner or a broom is all that is necessary. Simply sweep or vacuum the floor and, if necessary, wipe the floor with a damp cloth using the environmentally friendly cleaning agent 'clean & green active', which is specifically designed for HARO Laminate Floors.

Technology and range

Gran Via 4V, Plank 1-Strip 4V

1
The overlay (the upper layer) is almost as hard as a diamond and is hard to beat when it comes to durability, scratch resistance and strength. Overlay, specially impregnated (durable protective layer)

2
The decorative layer made out of a special lightfast paper guarantees a high grade of naturalness and bright, brilliant colours – this is owed to the process in which it is elaborately printed and soaked in melamine resin. Decorative laminate and sheets of kraft paper, specially mpregnated

3
Special moisture-control HDF E1 coreboard aquaResist

4
The balancing laminate on the back of the laminate floorboard balances out the tension to the overlay. It prevents the boards from warping and offers additional moisture protection. Several sheets of balancing laminate (moisture repellent)

5
Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

TRITTY 90
Technology and range

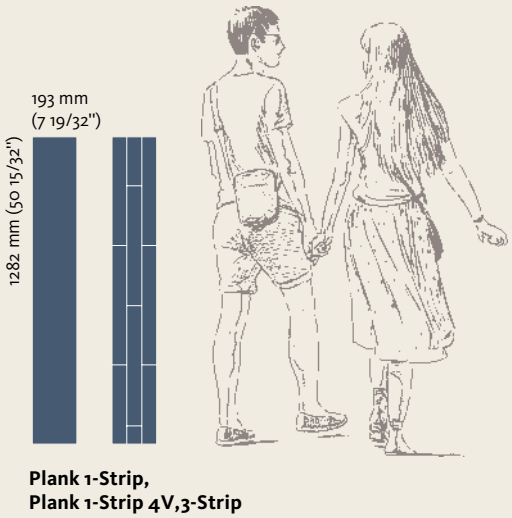

1
The overlay (the upper layer) is almost as hard as a diamond and is hard to beat when it comes to durability, scratch resistance and strength. Overlay, specially impregnated (durable protective layer)

2
The decorative layer made out of a special lightfast paper guarantees a high grade of naturalness and bright, brilliant colours – this is owed to the process in which it is elaborately printed and soaked in melamine resin. Decorative laminate, with special impregnation.

3
The softwood coreboard ensures maximum dimensional stability and protection from moisture. Special moisture-control HDF E1 coreboard aquaResist.

4
The balancing laminate on the back of the laminate floorboard balances out the tension to the overlay. It prevents the boards from warping and offers additional moisture protection.

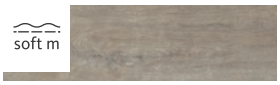

5
Optionally available with integrated Silent Pro luxury insulation layer or with Silent CT technology (suitable for use with underfloor heating)

Find the right accessories for your floor online!

Guaranteed to fit: HARO Accessories for Laminate Floors

When you choose HARO, you get more than just a floor. HARO offers perfectly harmonised accessories, cleaning and care products, and replacement parts – not just for today and tomorrow, but for the entire lifetime of your floor. After all, as a fifth-generation family business, we are well aware of the importance of continuity and reliability – for the availability of our products as well as the relationship with our valued dealers and installation partners.

Skirtings
Matching or with a contrast? Skirtings enable transitions between the floor and the wall that are visually and functionally attuned to your desired floor. Naturally, they are also available in water-resistant versions.

Insulation underlays
Whether with or without underfloor heating: different insulation underlays guarantee the perfect underlay for every room and every floor.

blauer-engel.de/uz156

Transition mouldings
With the matching transition mouldings, you can harmoniously combine different flooring variants or even different floor coverings.

Stair nosings
With stair nosings, the room and staircase become an aesthetic unit. This makes open room concepts appear particularly elegant and harmonious.

You can get the right care product for your floor from your dealer or online.

clean & green, perfect care for laminate floors

We always offer the right cleaning product so that you can keep your floor clean easily and gently. You will be amazed at how little of the care product you need.

clean & green active
For the basic cleaning of worn surfaces in intensively used living areas. For cleaning the floor before treatment with aqua shield.

clean & green aqua shield
For long-term refurbishing and maintenance of your HARO Laminate Floor.

HARO Laminate Floors will convince you. Guaranteed.

Every day, our employees put great expertise, experience and passion into their work. That is why we are certain that product from HARO will convince with its outstanding quality. We emphasise this with our warrantees of 20 and 25 years, which is up to twice as long as those of other manufacturers.

The fact that quality is a top priority at HARO is proven by numerous certificates from internationally recognised institutions. As a member of important industry organisations and associations, we are also committed to quality, transparency and sustainability that reach beyond our company.

HARO warranty (up to 25 years)

HARO 25 years Warranty

In addition to the statutory warranty terms, HARO also provides additional warranties for various product groups. Please note the respective warranty conditions.

Certificates

BLAUER ENGEL DAS UMWELTZEICHEN
